Build With Confidence. Estimate With Precision.

In construction, accurate numbers can make a major difference before a project even begins.

At **MSB Estimating LLC**, we help contractors, subcontractors, builders, developers, architects, and construction professionals make informed decisions with detailed cost estimates and material takeoffs.

We turn project plans into clear, reliable estimates that help you bid with confidence and plan your projects effectively.

OUR SERVICES

Comprehensive Construction Estimating Services

We provide estimating support for a wide range of project types and trades, including:

Construction Cost Estimating

Detailed project cost breakdowns for accurate budgeting and bidding.

Quantity Takeoffs & Material Takeoffs

Accurate quantities of materials and construction components.

Residential Estimating

Estimating support for homes, additions, renovations, and residential projects.

Commercial Estimating

Detailed estimates for offices, retail, and commercial developments.

Industrial Estimating

Cost estimating support for industrial and large-scale projects.

MEP Estimating

Estimating for mechanical, electrical, and plumbing systems.

Structural Estimating

Detailed quantities and costs for structural construction components.

Preliminary & Budget Estimating

Early-stage cost planning to help establish realistic project budgets.

Bid Preparation Support

Organized estimates to help contractors prepare competitive bids.

Value Engineering

Identifying potential cost-saving options while meeting project requirements.

Dedicated Estimating Support

Reliable ongoing estimating assistance for your construction projects.

Our team works across multiple CSI divisions, including concrete, masonry, metals, finishes, mechanical, electrical, plumbing, and more.
